MONEY, BONDS AND STOCKS.

A Decrease of Activity, Accompanied by Firmness and Better Prices. NEW YORK, Sept. 25 .- Money on call was easy at 14 @ 24 per cent., the last loap being made at 2, closing offered at 2 per cent.

Prime mercantile paper, 51 @ 74 per cent. Sterling exchange was quiet but steady at \$4.842 for sixty-day bills, and \$4.88 for demand. The total sales of stocks to-day were 222,673 shares, including the following: Delaware, Lackawanna & Western, 15,800; Lake Shore, 15,069; Louisville & Nashville, 12,150; Michigan Central, 3,800; Northwestern, 11,625; Norfolk & Western preferred, 3,200; Oregon Transcontinental, 4,120; Reading, 24,100; Richmond & West Point, 10,805; St. Paul, 37,666; Texas Pacific, 4,680; Union Pacific, 8,480; Western Union,

3,365. The stock market was again less active to-day, but there was a firmer feeling, and at least a portion of yesterday's losses was recovered. The course of the market was much the same as it has been for the past few days, the legitimate business of the day being done in the forencon, when prices advanced, and the "bears" then taking a hand in affairs and sagging the list off, though to-day their operations did not meet with such success as has attended them during the past few days. There was a manifest disposition to wait for advices from the meeting of St. Paul stockholders in London, this morning, but the feeling on the street was better and a stronger tone marked the trading of the forenoon. The Vanderbilts were, after St. Paul, the features, and material gains were made in them. The declaration of the dividend on Rock Island and the gain in the earnings of St. Paul belped that stock up, and it was easily the leader of the market. Un-ion Pacific, Louisville & Nashville, Reading and Northern Pacific preferred were all prominent, but in pope of them were the mevements of special importance except in the last hour, when Upion Pacific moved up smartly and the general list followed. There was active trading in New England throughout the day, but its fluctustions were confined to a range of only a per cent, and seemed to have little or no significance. The delay in the Richmond Terminal-East Tennessee matter gave an opportunity to "bears" to attack the stock of the Terminal company, and it was made the means of breaking the rest of the list. The first sales were generally made at but slight changes from last night's prices, and after a momentary weakness the market advanced all along the line, but progress was slow until toward noon, when St. Paul and the Vanderbilts made marked gains. Trading then became dull, while the attack on Richmond & West Point carried prices down all over the list. The market, after that time, remained feverish and unsettled, with no marked move-ment but a general downward tendency until in the late hours, when Union Pacific took the lead, and some recoveries were made from the low prices prevailing. The market closed quie and rather weak, however, at the figures. The final changes are almost invariably in the direc tion of higher prices, though confined to smal fractions in most cases; Nickel-plate first pre

Hocking Valley, 1 per cent. The day in the bond market was the dulles that we have had in some months, the sales aggregating only \$691,000, while the tone of the dealings was heavy. There was no feature however, and considerable irregularity in the movement existed, but the majority of the fina changes are in the direction of lower figures. CHICAGO, Sept. 25.-Trading in wheat was very active again to-day, with another material advance established in prices. The opening Wis about lelie higher than yesterday's closing figures, ruled steady for a while, and then took another start, advancing 1%c, declining &c, and again becoming steady, and closing about 2%c higher than yesterday. A large speculative business was transacted, the bulk being on local and Northwestern account. The advance was attributed to about the same influences as noted yesterday, of which the situation in the Northwest was the principal factor. Duluth was again several cents higher, and New York was relatively stronger than usual, sympathizing more generally with the advance in the West.

Liverpool was quoted firm, with prices tending up. The receipts are small. The export clearances from three seaboard ports yesterday were very light, but at present is not attracting much attention, speculation being governed apparently wholly by the domestic situation. There was very active buying, but the advance was met with pretty free realizing on the part of "longs," which checked and prevented any further advance. But the offerings were soon absorbed. and with that a steady feeling again developed. Trading in corn was active and the feeling developed much strength, a higher range of prices being established. The governing influences were the advances in wheat, the active demand from "shorts," and the operations of a heavy local operator, who was credited with buying treely. The market opened about ic above the closing price of yesterday, became firmer, advanced with some reaction | @lie, sold off to, again advanced je, ruled steady and closed with near futures 12 @24c higher, and May to higher than yesterday. The receipts were quite large, but the estimates for to-morrow were not as large as usual, and this created some demand. The "short" interest was apparently quite large, and in covering prices advanced sharply. Cables were duli and home markets higher. Oats were firmer, in sympathy with the advance in wheat and corn, and values are take better. Mess pork was fairly active. The near futures were rather quiet, but steadier. Opening sales were at 24c advance, appreciated 10@174c on the active futures, and the gain was fairly maintained until the close. There was a fair business to lard, within a narrow range of prices. October was held steadily at the same figures as for several days past. Trading was mainly in November and January, and a steadier feeling prevailed. In short-ribs a better inquiry existed for the near futures, also for cash, the latter being wanted for shipment to Western consuming points. Offerings were moderate and sales were made at . 05c advance; the market sold up . 05 2. 10c and closed steady. The leading futures ranged

INDIANAPOLIS MARKETS.

Trade Quite Satisfactory in Its Volume-Prices Strong. INDIANAPOLIS, Sept. 25.

In nearly all departments trade is moving along with marked activity. Buyers are coming in in goodly numbers, and mail orders are numerous, and all are buying with more liberality than usual, which indicates a growing confidence with the retail merchants that, on account of the good crops, they may expect a good fall trade. The dry goods men were very busy to-day, and, in fact, all the month they have been having a big trade. Prices all along the line rule firm, and on most lines of goods higher rather than lower prices are indicated. Grocers, as well, are very busy. Sugars, coffees and canned goods retain their strong tone, and the distribution of the two staples is large. The produce men report business excellent and a firmer tone to prices prevailing than last week, unless it be on apples and potatoes, receipts of which are large. Butter, as well, unless choice, is weaker. Eggs and poultry, peaches and pears all firm at the recent advances. The iron and hardware markets both are strong in tone.

and advancing prices are indicated. The provision market rules firm and steady. The light stocks now held, it is thought, insure good prices for hogs this fall. The Indianapolis packers are all arranging to kill more hogs than last year. If present prices prevail, the revenue from the hog crop to the farmers will be fully up to that of last year, although there will be fewer hogs to market. The seed market rules firm. The wool market shows no signs of an early improvement in prices or in demand.

The local market, so far as prices are concerned, was in much the same position as on Monday. For wheat there is a brisk demand; receipts light, Corn dull; buyers few. Oats rule steady at about the range of prices of several days past. Futures attract but little atten-tion. Track bids to-day ruled as follows:
